

# Machines and equipment for textile care

## Fully serviced second-hand machine

Our company is one of the leaders in Europe in providing second hand dry cleaning and laundry equipment. Our 2000 squaremeter facility is full of in stock equipment ready to delivered to our customers around the world. We have equipment available in every price range. We can, at our customer's request, either totally refurbish equipment or just simply do a service on existing parts to ensure each piece of equipment we deliver is in top notch working condition.

Put our 25 year experience to work for you. We know the needs of dry cleaners and laundries and offer you the greatest value at the lowest, competitive price.

We offer you individual-ly based customer service: advice and solutions

**Tested,  
packed,  
out into the world**

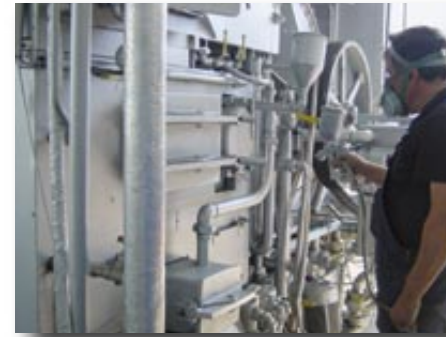

**W**e have made the necessary investments to guarantee you the finest quality equipment and to give you the best in customer satisfaction. One of the greatest factors in your company's success is the working condition of your equipment. This is why we fully test each piece of equipment before we deliver it to you.

Our many years of supplying the needs of our customers has helped us to become experts in finding solutions to your special requests.

servicing  
work

Painting a machine that has been fully restored

Our steam boiler with a pressure of 100 lbs is used to test each piece of equipment before delivery
